Jiajin Wu

Vehicle Issue Triage Engineer

LinkedIn: david-jiajin-wu

EDUCATION

University of Michigan-Ann Arbor <i>Master of Engineering, Systems Engineering & Design</i> Concentration: Automotive Engineering	Dec 2022 GPA: 3.9
Shanghai Jiao Tong University <i>Bachelor of Science, Mechanical Engineering</i>	Aug 2021 GPA: 3.6

WORK EXPERIENCE

Vehicle Issue Triage Engineer <i>Aptiv Corporation</i>	Feb 2023 — Present <i>Troy, MI</i>
• Triaged the issues during vehicle tests to clarify the ownership of the issues • Evaluated and summarized the issues found to align with internal engineer and external customer • Coordinated the test case design for vehicle tests to match the customer's requirements • Reviewed and refined the process of finding the potential issues for vehicle tests • Summarized the common failure pattern and report potential product defeats to development teams • Worked together with development teams to resolve the reported issues	
Graduate Student Instructor <i>College of Engineering, University of Michigan</i>	Sept — Dec 2022 <i>Ann Arbor, MI</i>
• Helped students to clarify the requirements and expected deliverable of assignments • Assisted professor to prepare the materials for lectures and review classes • Graded the assignments and projects of students to provide them the feedback • Held office hours to answer the question from students about lectures and assignments	
Systems Engineering Intern <i>Varian Medical System</i>	Jun — Sept 2022 <i>Palo Alto, CA</i>
• Collaborated with multifunctional engineers to build the prototype of new project • Performed tests on the prototype to evaluate the system performance with KPIs • Visualized and documented the test results to share with other teams • Created an GUI-based application to generate test plans with graphic interfaces	

SKILLS

Vehicle Development & Testing	CANoe, CANape, CAPL Script, vFlash, Chrysler Diagnostic Tool
Model-Based Systems Engineering	UML, SysML, CAMEO MagicDraw, SPSS, XLDyn, DFMEA
CAD Modeling & Simulation	SolidWorks, Seimens NX, COMSOL, CarSim, ANSYS
Scripting Language	MATLAB, Simulink, Python, R, C, C++, LabVIEW, ROS, Linux
Project Management	Agile, Scrum, Jira, Polarion, Confluence, Plastic SCM
